“Anyone can give up, it's the easiest thing in the world to do. But to hold it together when everyone else would understand if you fell apart, that's true strength.”

Omnicom in March

This month our students had a chance to learn about Maple syrup while taking a tour to a Maple Syrup Farm on the 24th of March.

“Maple Sugar production was especially important due to the fact that other types of sugar were hard to find and expensive. It was as common on the table as salt is today. Even if production methods have been streamlined since

colonial days, they remain basically the same. The sap must first be collected and distilled carefully so that you get the same totally natural, totally pure syrup without any chemical agents or preservatives.”

News from Our Calgary Campus

Graduation takes place on Fridays at 3:20 pm in the student lounge or in the reception area. Graduating students receive a certificate or diploma upon completion of their program. Students are always

encouraged to attend this meaningful ceremony to say good bye to their graduating classmates and friends. Here are a few pictures from some of our students who graduated this month. We all wish them the best of luck in their future and hope to see them again someday, in Calgary or in their countries !!!
