September is for TIFF "TIFF. For the love of film".

What began as a ten-day film festival has grown to embrace programming 365 days a year. TIFF offers screenings, lectures, discussions, festivals, workshops industry support and the chance to meet filmmakers from Canada and around the world. If you love film, you'll love it here.

Student Testimonial :
Javier from Spain

I think that the school location is great and we can go there easily and after classes you can move freely to any interesting place to visit. Moreover there is a large library to which we can access after class. I am quite happy about the place and the teaching staff. In my opinion, CAE level classes or lessons are interesting because they are focused on the 4 skills we need to practice to pass the exam. Talking about the elective classes, I have enjoyed a lot because I have learnt vocabulary, grammar and I have improved and refreshed my English. I believe that all the excursions, activities and trips make study here attractive for students because you can have fun after class. I have no hesitations of recommending coming to Omnicom in order to learn English know another culture and enjoy a great country and its inhabitants. For me, it's being a great experience and the school is doing its best.
